## Mobile DC Charging Station

### Charging equipment

Power	7KW
Access method	Single phase 32A
Installation method	Movable
Dimensions	500*230*180mm
Weight	30kg
Input voltage	85-265Vac; 220Vac. (type)
AC input frequency	47~63Hz; 50Hz (type)
Output Voltage	50-750Vdc
Output Current	0-20A
Gun line length	3M (Optional)
Input line length	2M (Optional)
DC Plugs	DC-GBT/CCS2

### Features

Efficiency	≥95%
Quick Control	One-click start
Protective design	Overvoltage protection, undervoltage protection, overload protection, short circuit protection, grounding protection, overtemperature protection, low temperature protection, lightning protection.
Customization scope	Colors, Logos
Communication interface	CAN communication

### Environmental indicators

Working TEMP	-40°C ~ +75°C
IP Grade	IP54
Cooling method	Forced air cooling
